Torrington, WY
Suicide CAST Awareness program
Program Cost: FREE

Life-Saving Culture. *Life-Saving Conversations.*

Preregistration is appreciated. To register please contact Kate Morrison at pastorkatem@gmail.com or by phone 532-2972.

Suicide is preventable! You can make the difference. Research says that 80% of the population is touched by suicide in some way, either you have thought about it, you have tried to, or someone that you know has attempted or completed a suicide. This Community Awareness Skills Training is a presentation that uses the SuicideTalk curriculum. During this 90 minute presentation, you will hear about what you can do to make a difference. We will examine why people experience thoughts of suicide, encourage open discussions about suicide and attitudes towards it, and explore ways people can help to prevent suicide. Together we can create a soul-safe community!
